Celebrating its 50th anniversary, The Woodlands is shining brighter than ever. *by JANE HUMPHREY*

Golden Hour

“The Ritz-Carlton Residences, The Woodlands is a first-of-its-kind, ultra-luxury condo development on the shores of Lake Woodlands, and the demand we have seen has been nothing short of incredible as it continues to surpass expectations,” shares David O’Reilly, chief executive officer of Howard Hughes. “As we celebrate the 50th anniversary of The Woodlands, we are also creating a vision for the next 50 years—anticipating evolving homebuyer preferences and providing our residents and tenants with the highest quality of life in a community with an unprecedented 35% of its acreage permanently dedicated to open green space.”

Howard Hughes Holdings Inc. recently broke ground on The Ritz-Carlton Residences, The Woodlands, the new luxury condominium project designed by Robert A.M. Stern Architects in the acclaimed Howard Hughes community of The Woodlands.
